## GASTRONOMY

Dining at Islas Secas is a movable feast. Start at Terraza - the vaulted structure that serves as the beating heart of Secas. Sample dishes at stylish open-air tables or inviting nooks under the soaring thatched roof. Romantic dinners are served beneath palms, family meals at Casita Grande, or a remote beach picnic on a whole other island. Be sure to spend time at Balboa Bar – the perfect place to recount highlights from the day’s adventures. Historic maps, local artifacts, and wood paneling make this the ideal spot to sit back and tell a tall tale – or quietly cozy into a book, cocktail in hand.

## WELLNESS

At Islas Secas, mind and body are energized by all that is wild in our beautiful island setting. Our secluded, open-to-the-elements wellness retreat offers a nurturing escape. From the secret garden setting, surrounded by gnarled, over-draped trees, to the island-sourced products in our spa treatments, breathe deep and enjoy the elements. Home-crafted blends using natural ingredients such as coconut, jasmine and ylang ylang, create thoughtfully relaxing or energizing treatments. Peaceful yoga is available in stunning outdoor locations.

## MARINE SAFARI

Exploring the waters of the Gulf of Chiriquí provides a glimpse of one of the least explored and most abundant marine ecosystems on the planet. Dive in the big blue of this remote archipelago to discover colorful inshore coral reefs; head to deep seamounts and pinnacles amidst manta rays and dolphins; paddle to quiet coves or take a guided seabound adventure to outlying islands; witness majestic humpback whales by boat trips in season; or drift gently with a mask and snorkel over the kaleidoscopic sea life. World-class fishing awaits.

## ADVENTURES ON LAND

Islas Secas is a birdwatcher's paradise with over 124 resident and migratory birds. Our main island features miles of groomed trails for guests to observe tropical flora and fauna.

Witness a blowhole spray water 60 feet high; visit a huge 300-year old cedar tree at Cedro Grande. Emerge on the beach to explore giant driftwood. Pause high cliff to gaze out over clear blue waters. Or be transported to a secluded beach with a picnic, cooler, lounge chair, umbrella - and a two-way radio. Stay as long as you like. Signal for a return when ready.

## ENVIRONMENTAL STEWARDSHIP

As a marine protected area, Islas Secas holds sustainability and stewardship at the core of its facilities, infrastructure and operation.

100%

of our property's electricity is generated by renewable solar

100%

of wastewater is reclaimed, treated, and reused for irrigation

100%

of island food waste is composted for fertilizer

- Our fuel, including private plane and boats, is offset through a carbon program
- Islas Secas supports local education and critical community services
- The privately funded Islas Secas Foundation supports marine and wildlife conservation in the region.

As a long-term monitoring station, we collect data on our marine environment to inform area conservation measures. Guests are welcome to participate in various citizen science projects.

“Islas Secas is a next-generation island experience. It unfolds as an entire unspoiled archipelago of 14 swoon-worthy islands rife with palm-fringed, gold-sand beaches and volcanic cliffs blanketed in native flora and bird colonies.”
